Eastbrook Homes is pleased to present a beautiful new home community in Byron Center. Cook's Crossing offers single family homes as well as both attached and detached condominiums.

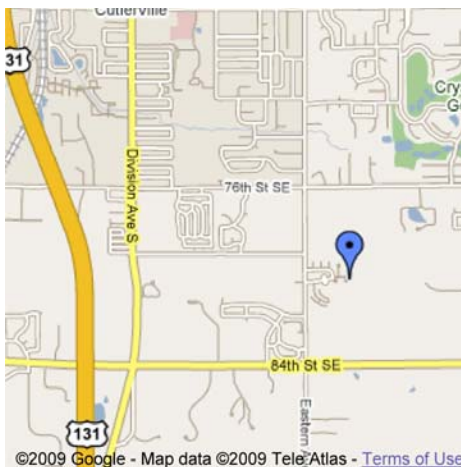

The community entryway features mature landscaping and a gazebo overlooking a peaceful pond. The community will also feature six parks, a playground and a walking trail that connects to the local trail system.

The community lies within the [Byron Center School District](#), just up the street from the new [Countryside Elementary](#), and adjacent to the new [South Christian High School](#) athletic facility.
